

An experience like no other

STORYTELLING

— DENISE MILLER —

Denise's natural interest in traditional story, drum and song come from her Celtic and Native North American ancestry. She has always found that a good story could transport her away to anywhere. One of Denise's favourite childhood stories was "The Ugly Duckling". She was always deeply touched when the little cygnet found a place to belong simply by being recognized for who it was.

Over the past twenty-five years, Denise has told stories while coordinating and teaching outdoor pursuits, team building and historical curriculum programs. Now she presents at corporate events, festivals, conferences and schools at all levels, across the world.

Denise will be presenting fascinating storytelling programs for your enjoyment. Join her as she tells two riveting "Tales of Turtle Island". These captivating stories will touch on the beginnings of Canada, the persistent peoples who followed the glaciers as they receded, the discoveries of early explorers and fur traders who helped build Canada into a nation.

Denise is a blend of depth, insight, humour and inspiration as she weaves life experiences and story together. She awakens new levels of understanding on human dynamics, personal mastery and the elements of self. Denise reminds us that we too can create and experience peace, joy and happiness through practice of the simple yet powerful teachings.
